

# »» FAMILIES: WHAT YOU NEED TO KNOW ABOUT THE COVID-19 VACCINE

COVID-19 vaccines are safe, effective and FREE!

No need for an appointment—many school districts will be holding walk-in clinics for staff, students and families. Vaccines are also available at retail locations, community clinics, and elsewhere.

Vaccines were paid for with taxpayer dollars and will be given to ALL people living in the United States, regardless of insurance or immigration status.

Vaccinating school staff and our youth 12+ will help protect them and others as they return to in-person learning this fall.

If you need time off from work to get a vaccine or to recover or care for a recovering family member, most are protected by California law to do so.

Nationwide, 99% of recent deaths from COVID are among unvaccinated people.

**Get a vaccine for yourself and everyone in your family who is 12 and older – it can save a life!**

Schools are reopening! Add the **#COVID19** vaccine to your child's back to school list this fall. It will keep them safer and provide you with peace of mind. Schedule an appointment or find a walk-in location near you.

**#makeadatetovaccinate.**

Visit [MyTurn.ca.gov](https://MyTurn.ca.gov) or call **1-833-422-4255** to make your appointment or find a walk-in clinic today!

No requirement or reason to share immigration or citizenship status to get a vaccination. No insurance necessary. Vaccines are FREE.
